ABSTRACT

Statistical data on the racial and ethnic distribution of students and staff in New York State public elementary and secondary schools are presented in this report. Detailed in the tables are: (1) racial/ethnic distribution of public school students, 1979-80; (2) distribution of black and Hispanic students, 1979-80; (3) percent distribution of public school students by racial/ethnic origin, 1975-76 through 1979-80; (4) number of schools and number and percent of black, Hispanic, and minority students in schools of differing racial composition, 1979-80; and (5) percent distribution of public school professional staff by racial/ethnic origin, 1975-76 through 1979-80. Extensive appendices to the report present the percent distribution of public school students and professional staff by racial/ethnic origin, listed by school district within county, for the year 1979-80. INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System.

Table 1 presents the 1979-80 racial/ethnic distribution of public school students for the State's "Big Five"[a/] school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of table 1 shows, in part, that (1) excluding the "big Five" cities, 7.4 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--black and Hispanic; (2) within New York City, 68.4 percent of the students are of a major minority group, and 27.8 percent are classified as white; (3) in four of the State's five largest cities, over 32 percent of the students are classified as black.

Table 2 details the 1979-80 distribution of black and Hispanic students by location in the State. It can be seen that of all public school black students in the State, 70.4 percent attend schools in New York City, while an additional 9.9 percent attend schools in the other four major cities. Some 87.2 percent of the State's Hispanic students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1975-76 through 1979-80. In the large cities of the State, the major minority group population of the public schools rose from 62.6 percent in 1975-76 to 65.8 percent in 1979-80. The increase was most pronounced in Yonkers where black and Hispanic representation in the public schools rose 6.9 percentage points over the five-year period.

Table 4 shows the number of schools and the number and percent of minority students (black and Hispanic) in schools of differing racial composition; i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that (1) there are 403 schools in New York with no black or Hispanic students; (2) there are 63 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 3.9 percent of the State's total black and Hispanic enrollment; (3) about three-quarters (75.4 percent) of the black and Hispanic students in New York State's public schools attend a school that can be classified as a minority school; i.e., 50 percent or more of the students are black or Hispanic.

[a/] Buffalo, New York City, Rochester, Syracuse, Yonkers

Table 5 shows the number of schools and the number and percent of black students in schools of differing racial composition. Examination of table 5 shows, in part, that (1) there are 634 schools in New York State with no black students; (2) there are 3 schools which are all black and that the enrollment in these schools accounts for 0.2 percent of the State's total black enrollment; (3) over half (53.1 percent) of the black students in New York State's public schools attend a school that is predominately black; i.e., 50 percent or more of the students are black.

Table 6 presents data similar to that of table 5 for Hispanic students. It may be seen that while there are no "all Hispanic" schools in the State, 43.9 percent of the Hispanic students attend schools with enrollments that are predominately (50 percent or more) of the same ethnic group.

Table's 7 and 8 show the distribution of public school professional staff by racial/ethnic origin, with current year data presented in table 7 and trend data for the years 1975-76 through 1979-80 appearing in table 8. Table 8 shows that the percent of minority group staff rose from 13.7 to 16.4 percent in the large cities of the State between 1975-76 and 1979-80. For the total State, minority groups increased from 6.2 percent of public school staff in 1975-76 to 7.7 percent in 1979-80.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school professional staff by racial/ethnic origin for each school district in the State.
